MEMORANDUM

TO: Mamoun Younes, M.D.
SUBJECT: Progress Reports for Moran Foundation Projects
DATE: May 14, 1997

In order to compile a summary of the past year's work for Mr. John A. Moran at the annual Moran Foundation Board of Directors Meeting in late June, please provide me with a progress report of your Moran Foundation project (listed below), indicating or clarifying the status of your project, no later than June 18, 1997.

As part of your report, please indicate whether the research is still active or is now completed. Please include a list of any presentations given or papers published that are directly related to your Moran project. Also include any that are In Press or In Preparation.

I would appreciate your response in a timely fashion. Call me at 790-2436 if I can be of any help.

Philip J. Migliore, M.D.
Research Director
The Moran Foundation

Houston, TX 77030

Dear Dr. Migliore:

I am writing to you to report on the progress of my research project "The effect of pulsed magnetic field (PMF) on cancer cells in vitro" which has been funded by the Foundation.

The scientist who did make the device did not show up, as he promised, to make the necessary adjustments, and I have not heard from him for the past 5 months. Unless things change in the future, this project is on hold, indefinitely.

Sincerely,

A handwritten signature in cursive script that reads 'Mamoun Younes'.

Mamoun Younes, M.D.
